

Toshiba D10 Point-of-Sale System

Compact Solution, Big on Performance

Achieving Brilliant Commerce with a Small-Scale Platform

Retailers are looking to enhance their store environments with reliable Point-of-Sale (POS) systems that allow them to provide their customers with the best possible service. But every retailer has a unique set of needs to create a satisfying experience for shoppers. The retail optimized Toshiba D10 POS system delivers a sleek, compact solution with the right functionality at the right price for small businesses and established retailers who are looking for an affordable, stylish POS system.

The small, elegant design of the Toshiba D10 POS conserves retail space by fitting easily into the most compact of counter spaces. In areas with more limited available space, the Toshiba D10 POS can be oriented on its side and slid into a shelf, enabling you to adapt or improvise without compromising on functionality or quality while still offering the capability to connect to a full range of peripheral devices, making it a complete POS solution that's just right for your business.

Available in select markets*, exclusively from an authorized Toshiba Global Commerce Solutions Business Partner.

DELIVERING BIG FUNCTIONALITY IN A COMPACT, STYLISH SOLUTION

Substantial Performance and Easy Maintenance

Retailers shouldn't have to compromise on POS performance in order to meet a space requirement. The Toshiba D10 POS has an AMD processor that is specifically designed to meet the requirements of a wide range of embedded applications and provides industry leading performance with low power attributes. The simple yet durable design of the Toshiba D10 makes for easy installation and maintenance, including a one piece front bezel assembly, simple LENS design for LED indicators, fixed connectivity options and built-in power management. The Toshiba D10 POS not only looks good, but reduces your eco footprint and operating costs.

Operational Impact

The Toshiba D10 is an open platform with broad operating system support along with built-in power management to help save energy and reduce operating costs. It helps small startups and established retailers implement a sleek, compact solution that packs big features designed to support the functionality, style and versatility that today's retail environment demands and helps deliver improved customer and employee experiences in the process.

Retailers

Helps reduce initial investment cost and increase revenue per square foot by maximizing the use of your retail floor space.

Associates

Enables associates to provide frictionless checkout and better customer service within a smaller footprint.

Customers

Increases floor space for product promotion to customers while enabling a reliable checkout experience.
